

Ice Marbles

This is a great sensory activity for a hot Summer day. Children can use their creative skills to mix colours and discover what will happen.

WHAT YOU WILL NEED:

- Balloons
- Water
- Food Coloring
- Scissors
- Cookie Sheet {If you plan to bring indoors and experiment with salt}

INSTRUCTIONS:

- Take a balloon and place a few drops of food coloring into the balloon.
- Fill the balloon up with water and tie the balloon closed.
- Toss the balloons out into the snow or place in the freezer over night to freeze.
- Once frozen take a pair of scissors and cut open the balloon. Remove the balloon from the ice marble.
- **Please ensure you gather all the pieces from the balloon and safely dispose. Balloons pieces can be small and potentially be a choking hazard.**
